Customer Reference/Order Number:

Number of Returned Items:

Unit Serial Number	Logger Type/Part Number (e.g. TG-0050)	Reason for Return (please tick)		If returning for Repair , please give a brief description of the nature of the fault. If returning for a Service Calibration , please indicate the calibration points desired (please see the notes below for min. and max. possible calibration points).
		Repair	Service Calibration	

PLEASE NOTE:

1. A repair may be deemed chargeable if the unit has been modified or misused, regardless of its warranty status.
2. If a repair is chargeable, an official estimate will be raised for your approval prior to commencement of any work.
3. If the repair/calibration is an external temperature unit its associated probe must be returned with it. Without the probe Gemini will be unable to repair/calibrate the unit and it will be returned with no action taken.
4. All goods must be returned clean and free from potentially hazardous contamination. Gemini reserves the right not to service or repair goods which do not meet this condition.
5. Calibration certificates can be issued for temperature data loggers between -20°C and +150°C and for humidity data loggers between 20% and 90% RH at 25°C.
6. Standard Terms and Conditions apply (a copy of which are available upon request).
